FILE HEADING

Revised estimate for Rs 2 50 000/- for the Construction of the municipal office building at Davangere.

FROM

The Municipal Commissioner Davangere city

No MC No 54 / S2-53 Dated 9/10 10-52 Received

Diary No 5206 and	Enclos	Spare copies	Serial No

BRIEF ABSTRACT OF LETTER

Forwards for according administrative sanction the above estimate and plans and the resolutions of the municipal Council passed from time to time, in this behalf

NOTES AND ORDERS

flag J

Collection no 172-53 (Sh 48 C) Sanctioning the Construction of a Separate building for the municipal office at ~~D~~ Davangere at a cost of Rs 59 000/ is put up

flag K

2) Collection C M 13-49 (Sh 184) Sanctioning a Revised estimate for the above building for Rs 1,36,800 Consequent on the extra cost of the excavation of the foundation and the modifications suggested by the Govt Architect on the design, is also put up

NOTES — First Sheet

WD 015470—GPB—5 000—24-9 51

revised estimate for Rs 2,50,000/- for construction of new MC Office at Tawang

File No 5206/mc of 195 | General and P ... Secretariat

8) Collection C/F 13-49 (Sh 7810) Forwarding approval to the acceptance of the tender of Sh Balakrishnamoorthy vide Co No L 1031/C/F 13-49-10 dated 26.4.70 (Copy flag is put up

4) The estimate now sent for the Municipal Office Building is for Rs 2 50000/ made up of -

(1) Foundation and Basement Stages already incurred - Rs 31855/ (under Co dated 29.7.69)

(2) Superstructure both ground floor & 1st floor - Rs 2210000/-

(3) Spl items to be allowed as per Representation of the Contractor - Rs 8014/-

Total Rs 2,49879/-

Co Recent Approx Rs 2 50000/-

5) The Revision of the estimate again now has been necessitated by the adoption of 'L' shaped Block at the Suggestion of the Govt Architect and the putting up of a ~~25~~ after 1st floor in addition to the ground floor

6) It is seen from the Comparative Statement dated 25.4.71 that the estimate approved is for Rs 2 Lakhs as against 2½ Lakhs mentioned in the Commissioner's letter (Code para 4 Page) This may perhaps require clarification from the Comm

6) The case has been examined

construction of new municipal offices at Devakottai
at a estimate cost of Rs 2,50,000/ 5208/ML CM. 11.52

3

taken up and completed pending administra
tive Sanction and the such a course
should not have been adopted as a
costly and expensive work like this
This irregularity has also been pointed out
in the Report of enquiry of the Director
of Anti Corruption and Efficiency audit

7) The Estimate also Requires
Sanction by the Chief Engineer

8) Submitted for orders

23/10/52

9) Pl enclose the extract of
28/10/52 the report of the Dir Anti-
- corruption on this Subject

10) The extract of the report is reproduced
below:—

"

1 Construction of new Municipal Buildings -

The estimate was first sanctioned by Government for Rs 59,000/- in G O No L 945-8/M1 172-43-6 dated 29th July 1944 A modified estimate for Rs 1,30,500/- was sanctioned by Government in their order No L 2710-3/C M 13-49-2 dated 8th September 1949 This modified estimate included the cost of foundation work Now, after a period of nearly three years, another revised estimate has been prepared on 28-7-1952 in the Engineering Section of the Municipality, for Rs 2,10,000/- including the cost of a first floor but excluding the cost of foundation The explanation of the Assistant Engineer of the Municipality, for having omitted to include the cost of foundat

Revised estimate for Rs 2,50,000/- for the construction of the new HL offices building in Davangere.

5206/md

work in the revised estimate is that the original estimate was not available for reference when preparing the revised estimate How the other iters in the original estimate were included in the revised estimate in the above circumstances is not apparent If the cost of the foundation work is included, as it should be, the total estimate for the work as revised would be - Rs 2,40,000/- This revised estimate for Rs 2,10,000/- is stated to have been approved by the Municipal Council on 28th June 1952 The Proceedings Book was not available for reference, as it was understood to have been taken away by the Deputy Commissioner It is however, evident that the Revised estimate is not correct, as the cost of foundation work has not been included in it

2) The ted to Sri Balakrishna Mudaliar and this was approved by Government in their letter No L 1031/C II 13-49-10 dated 26th April 1950 to the President, Davangere Municipality The work has almost been completed, except, for some miscellaneous items which may cost about Rs 2,000/- to Rs 3,000/- There has been inordinate and inexcusable delay in measuring the work done so far The last measurement taken was on 7-6-1951 and this was checked by the Municipal Engineer on 12-6-1951, and this is only in respect of the ground floor The cost of work measured comes to about Rs 58,971-8-0 No measurements have been taken subsequent to 7-6-1951 that is for a period of fourteen months A considerable portion of the work executed, costing about Rs 1,50,000/- remains to be measured This is nearly three times the value of work for which measurements have been taken previously

3 The contractor has been given advances on several dates between 9-3-1951 and 18-8-1952 aggregating Rs 89,000/- by means of cheques Most of the advance bills have been recommended by the then Municipal Engineer On what basis

revised estimates for Rs 2,87,000/- for the construction of the new PW offices building in Davangere city-
LOB/mc

these advances were given has not been recorded on the bills He has simply noted on the advance bills preferred that the amount may be paid, sometimes limiting the amount The Municipal Commissioner has recorded on 14-9-1951, by which time a sum of Rs 15,000/- had been paid in excess of the original estimate, that a revised estimate should be submitted immediately Having noted like this on the advance bill, the Municipal Commissioner has sanctioned [illegible] estimate being prepared In fact two more advances aggregating Rs.25,000/- have been paid before a revised estimate was prepared How he allowed this and why he did not get revised estimate prepared for nine months from 14-9-1951 is not clear As the executive head, it was clearly his duty to have got a revised estimate prepared immediately, by putting sufficient pressured on the P W D staff and should not have recommended further advances before doing so He cannot escape responsibility by merely pleading that he had asked for such an estimate being prepared When the need for the first floor was felt, the Municipal Commissioner should have promptly got up a revised estimate prepared and submitted the same for sanction of Government after approval by the Municipal Council

5) It was only in June 1952 (after 9 months), that a revised estimate was prepared This is still to be submitted for the sanction of Government

11) Subject for orders - Ref para 9 above

Para 12 of the report of the Director of Anti-corruption and efficiency Audit is also produced below for necessary action; — P.T.O

30/10/52

31/10/52

Revised estimate for Rs 2,60,000/- for the construction of the new IV offices building in Davangere city sanctioned/me

(6)

Para 12 — (Page 17) — "The estimates or revised estimates for the General works for which Govt sanction is necessary may be obtained within one month and these, together with estimates pending sanction of Govt, may be got scrutinised thoroughly by the Chief Engineer as to rates. The measurements of completed works, especially big ones, may also be got measured checked, by an independent authority. The Present HI Engineer may be directed to take the measurements of the works & check them within the same period."

(13) In view of the above observations of the Director of Efficiency Audit, it is very necessary that the work must be examined and the rates verified and the estimate thoroughly scrutinised. In this connection it has to be stated that for unsanctioned items only minimum rates have to be given. There is not even the question of paying the maximum rates.

21.

Revised Estimate for Rs 2,50,000/- for Construction of the new M' Office building Mananyere city Hlby ——— 5206/

The Concerned Assistant Engineer deserve disserve to be continued as such When he does not know the elementary Principl of getting the estimate sanctioned prior to the execution of the work, what kind of work he has done cannot be understood He has been greatly responsible for the mismanagement of the Engineering works in that Hlby as found out from the Report of the Director

14) Further how the contractor went on doing the work without getting the estimate sanctioned and without ascertaining the specific Rates for specific items of works cannot be understood This Contractor found the officers very accomodating and he went on doing the work without orders to the extent of over 2 Lakhs when he had on his hand, a Sanctioned estimate for Rs 1,36,500/-

15) Taking all these into consideration

Revised estimate for Rs 2,60,000 [illegible]

17/7

SECRETARIAT GOVERNMENT 17 3/33

(a) Rates for tendered and non-tendered items are clearly indicated in the estimate recast by this office The rates provided for in respect of all non-tendered items are based on the minimum approved schedule rates of Davangere Division for the years 1949-50, 51-52

(b) The rate tendered for in respect of the ground floor for flooring with 3" thick lime concrete, 1½" thick cement concrete and finished with ½" thick cement plaster is Rs 50/- per square Since no lime concrete bed is put in for the flooring of the first floor the rate provided for in the estimate prepared by this office is Rs 37-13-0 (Tendered rate of Rs 50/- per square minus the cost of lime concrete)

(c) It is gathered from the Municipal Engineer, Davangere, that, excepting the windows of the Record room, none of the windows in the first floor is provided with iron bars In case iron-bars are not provided for, a reduction of annas nine in the tendered rate of Rs 12/- per square foot of window area is to be made X

(d) In the estimate received from the Government a sum of Rs 1,332/- is seen to have been ~~made~~ included towards the cost of providing and fixing a collapsible gate But, the estimate prepared in this office provides only for the cost of labour for fixing the gate, as it was stated by the Municipal Engineer that the collapsible gate fixed was the one available with the Municipality

(e) No provision is made towards the cost of the portico as the work is stated to have been got executed under a separate estimate

(f) The sum of Rs 31,855/- provided for, towards the cost of the work up to basement level, stated to have been executed as per the revised estimate sanctioned by Government for Rs 1,36,500/- is retained A copy of this estimate was obtained from the Municipal Engineer and is enclosed herewith

(g) The estimate forwarded by the Government

by the Government provides for a sum of Rs 8,024/- towards the extra amount payable to the contractor in accordance with the Municipal Councils' resolution to the effect that the contractor be paid enhanced rates in respect of certain items, in view of the special circumsta noted in their resolution This provision is retained to accommodate orders of Government if sanction should be accorded to the enhanced rates based on the resolution of the Municipal Council

(h) The sum of Rs 2,000/- provided for towards the cos of supervision charges is also retained.

34) 3. Sanitary fittings - The copies of the detailed estimates in respect of sanitary fittings, obtained from t Municipal Engineer, are enclosed. As the rates in respec of the materials vary from place to place and with time th do not admit of any check. The rates in respect of the other items are corrected with reference to the approved schedule of rates of the Sanitary Division . The rate of Rs.2/4/- per running foot of ½" G I pipe provided for in t estimate is retained. This rate is to be allowed if pipes were not made available at controlled rates.

35) 4. Electrical Installation - The copies of the det estimates in respect of this item of work were obtained fr the Municipal Engineer and are enclosed. The rates for tendered items are verified with the tender rate lists made available by the Municipal Engineer. The rates for the non-tendered items do not admit of any check, as no approved rate list is available in this office. The total cost of electrical installation amounts to Rs 15,654/-

36) 5 The total cost of the work as per the estimate recast in this office, on the above lines, amounts to Rs 2,35, 400/-

37) 6. The estimate for Rs 2,35,400/- recast in this offic along with copies of the estimates,drawings, tender rate lists, & etc , obtained from the Municipal Engineer, Davang City Municipality, accompany the un-official file.

Revised Estimate for 2.5 lakhs for the Construction

6/7/53

8) The U.O note of the C E is for perusal with reference to paras 27-29 ante

39) The present estimate as revised by the C E. is in respect of all works sanctioned and also others executed without sanction the entire estimate is revised for 2,35,400 as against the previous estimate for Rs 2 50,000/= The G.O. to be issued here Should be in supercession of all the previous G.Os. on the subject The execution of work by Sri Balakrishna Upadhaya Should also be approved

40) It may also be submitted in this connection that Separate action is being taken individually against all those concerned responsible for various irregularities as reported by the Special Officer, Efficiency Audit

41) The point for consideration and orders is whether the estimate finally revised by the C E for Rs 2,35,400/= may be approved

7/7/53

WD 02201—GPB—10 000—7 1 53

Serial No

42 From the abstract of the Revised estimate prepared by the Chief Engineer, it is seen that a sum of Rs 8024/- is retained over and above the estimated amount as extra ~~bal~~ amount on account of payment of enhanced rates ~~paid~~ prayed for by the Contractor. The sum is very heavy. The Chief Engr has an official note: does not say anything about the retention or otherwise of this amount. He leaves the Choice to the Govt (Vide Para 33(h)). Whether C-E may be requested to offer his definite opinion in the matter of paying entire amount or a portion thereof or whether Govt can sanction the payment of the entire amount is a point for consideration.

43 Second point is that a sum of Rs 2000/- is retained as Supervision Charges (Vide item no 2 in the abstract Flag F). This is an unusual item. Whether this amount should be given to the Contractor or whether this should be given to any other person is not clear. In my opinion, this is an item which has to be omitted. On this point also, the CE's definite opinion is very necessary.

44 Finally, after the opinion of the CE on the above two points are received

---

U O No 3926/RB-53-54 dated, 12 8-53
Encl 1 no file
Retransmitted

46) 2 On page 4, of letter No H C No 54/52-53 dated 9/10-10-1952 from the Municipal Commissioner addressed to the Secretary to Government, I S G Department, flagged "A", it is stated that the contractor Sri B N Balakrishna Mudaliar made a representation to the Municipal Council that he might be paid an extra lumpsum amount of Rs 8,024/-, towards expenses incurred for the recruitment of masons, carpenters and skilled labourers from outside the State, to get through the work on a rush basis and get the building ready for the opening ceremony by His highness the Maharaja of Mysore

47) The representation is stated to have been considered in all its aspects by the Municipal Council at its meeting held on the 28th June 1952 and it is also stated the Council unanimously resolved to allow the contractor the enhanced rates amounting to Rs 8,024/-

48) In view of the unusual and extraordinary circumstances that necessitated the incurring of extra expenditure on the part of the contractor, the proposal for the payment of the enhanced rate resolved by the Municipal Council may be accepted

49) 3 Supervision charges are provided for covering items of expenditure incurred on the cost of the Supervising establishment, storage and incidental charges The salary of temporary establishment engaged on the work is to be met out of this provision and this amount is not a gift to the contractor If this item is not provided for, in the estimate, the outlay on incidental charges cannot be booked against the estimate

IS/10-8-53

50) This is one of the most important works of this Municipality This item of work is also covered in the report submitted to Government by the Special Officer, Efficiency Audit The report of the Special Officer, is mostly on municipal works and their exeuction On a reference made to the Public Service Commission for opinion as to the punishment that may be imposed on the previous Municipal Engineer - Sri Ramanuja Iyengar - for grave irregularities, ommissions and commissions, on his part in the execution of Municipal works, the Public Service Commission have suggested a regular enquiry being held, charges framed against the said officer The said file is separately submitted What will come out of this enquiry will have a bearing on the Municipal works and on the work in question viz , construction of Municipal Office building, which is one of the most important works How far the officials of the Municipality and the contractor in question are responsible for irregularities in the exeuction of Municipal works and their respective degrees of responsibility is expected to be ~~borne out from the report~~ determined by the officer to be appointed to conduct the enquiry, as suggested by the Public Service Commission If the contractor in question has in any way transgressed his ~~obligations~~ responsibility and duty in the exeuution of this particular work, is a point to which regard should be had in according sanction to the estimate under disposal It may be pointed out in this connection that the work has already been executed incurring an outlay of Rs 2,50,000/- which is nearly twice the value of work for which competent sanction has been obtained Particularly in respect of this work, it is curious to note that even test measurements are not taken for nearly 14 months almost during execution of the portion of the work exceeding the sanctioned

The disposal of this case need not wait until the final orders are passed on the other file

estimate Whether the work has been executed according to schedule and required specifications is a point of doubt, as it is natural for any contractor to use shoddy materials when the Supervisory staff is out of sight A perusal of unofficial note of the Chief Engineer in paras 33 to 37 will reveal that the estimate ~~prepared~~ recast by him ~~which as thoroughly recast~~ is mostly based on the information furnished to him by the Municipal Engineer, Davangere There is also no indication that the Chief Engineer has at any time inspected this work in person Particular reference is invited to para 34 of the said U O note wherein a rate of Rs 2-4-0 per running foot of half- an inch G I pipe provided for in the estimate is stated to have been retained The Chief Engineer has opined that this rate may be allowed if pipes were not made available at controlled rates This requires verification by a reference to the Municipal Commissioner, as this rate will not be allowable if pipes were supplied at controlled rates

51) Reference ia also invited to the U O note at para 33 (c) and to the note at para 44 of the notes and orders ante As already suggested at para 44 the Municipal Commissioner will have to be addressed to intimate if iron bars are or are not provided to the windows in the first floor In the latter case,as suggested by the Chief Engineer, reduction of annas 0-9-0 in the tendered rate of 0-12-0 per sq ft of window area will have to be made

52) At para 35, the Chief Engineer has said, the rates for non-tendered items recast for non-tendered items do not admit of any ~~change~~ check as no approved rate is available in his office As the Chief

Revised estimate for the construction of New Municipal office building at Davanagere

20

has solely relied on the information furnished by the Municipal Engineer for details of the work, and/himself as he feels that certain items do not admit of check and/certain items are high, the rates of the estimate even as recast by the Chief Engineer can at best be taken to be a nearer approximation/~~xx xxx xxxx xf xxx xxxx~~ than an estimate of its correct cost It is better that the estimate as recast by the Chief Engineer is sent to the Municipal Commissioner for being adopted by the Municipal Council, as otherwise Government will be taking entire responsibility in according sanction to the estimate prepared by the Chief Engineer Remarks of the Secretary, P.W D may also be obtained before sanctioning the present estimate, as the amount involved is heavy and that the work has ~~xxxxxxxxxxxxxxxxxxxxxxxxxxxx~~ not been executed in accordance with the prescribed procedure

53) A sum of Rs 8,024/- has been provided as the extra amount payable to the contractor in view of the fact that the work had to be completed on a rush basis The Chief Engineer agrees to retain this amount on the grounds that the Municipal Council has resolved to grant the said amount The Chief Engineer and the P W Secretary may perhaps be requested to intimate if there are any such precedents

Again ~~then~~ a sum of Rs 2,000/- is provided towards supervision charges This is to cover the extra staff employed for supervision work Therefore it is to be ascertained by a reference to the Municipal Commissioner ~~xx xxxxxxxxxxxxx~~ as to what staff was employed for the purpose, as this amount should be limited to the actual expenditure incurred on the staff Submitted for orders

Ref Para 45.

14/8: Orders

Serial No	
54	Paras 50 to 52 both inclusive attempt to go back to the Stage at which this record started. All the point raised therein had been raised by the Special Officer for anti-corruption and efficiency audit and it is on her observation that the file was referred to the Chief Engineer for enquiry, inspection and Scrutiny of the estimate. The several matters that were taken up by the Special Officer and reported to Govt, ~~have to be done~~ about 1 year back, are under several Stages of Correspondence and ~~the Case wise~~ one by one have to be disposed. It is not desirable to keep all the Subjects pending, without passing a final order on any subject until the Officers are punished. Punishment or otherwise of Officers is an entirely different subject from the passing of estimates. I do not know why it has been noted that this should be kept pending until the Govt passes order on Ramanujam Iyengar's file (Para 50 ~~to~~ 55) Now the Chief Engineer has given his opinions on two points i.e. allowance of a lumpsum amount of Rs. 8000/- to the Contractor on the ground that he had to spend

the very heavy amount for receiving men from abroad etc I personally feel that when the Contractor is given the rates for the execution of those works, payment of a lumpsum amount cannot be made On the first report the Chief Engineer did not give any definite opinion vide Para 33(9) when he has stated that the amount may be paid I have given my opinion above However it is a matter of discretion vesting in Govt Payment of lumpsum does not stand to reason

56) As regards Rs 2000, which is the supervision charges, this amount need not be given to the Contractor and this is included in the estimate as an item of expenditure to the Hl Cl Therefore, even if the estimate is passed, the Hl Cl will be instructed not to pay Rs 2000 to the Contractor which is a supervision charges included in the Cl. but

57) Therefore, it is for orders whether the estimate has to be sanctioned for Rs 2,35,400/- (including Rs 8024)

or

Whether the estimate may have to be sanctioned for Rs (2,35,400 − 8024) 2,27,376 = 2,27,376

Revised Estimate for Rs 2 50,000/ for the Construction of a new Municipal Office Building [illegible]

General and Revenue Secretariat | Dararyge File No 5206/RE 23 of 1952 3

Serial No

omitting Rs 80 24/-

58) If the estimate is sanctioned, the HE Comr will be instructed to test check every item particularly with reference to iron bars etc and note the fact of having checked the measurements in the measurement book & then pass the amount retaining the portions which have been executed

GOVERNMENT 17 AUG 1953 DEPARTMENT

(59) The Executive Engineer Dararyge has checked the work - vide letter of the EE to CE Flap 'A'

(60) The Sanction of the estimate is for orders with the concurrence of the Secy PWD

18/8

Secy

(61) The letter of the Municipal Commissioner of 9th Oct 1952 gives the history of this case It will be seen therefrom that an estimate of Rs 59,000/- has ended up in an estimate of Rs 2,50,000/- It is a continuous tale of additions and revisions and modifications without competent authority or sanction There are many unusual features about this case which are obvious on a perusal of the report This was one of the works which have been examined by the Special Officer, Efficiency Audit He has pointed out that there are many irregularities and it is therefore, necessary to proceed with caution in this case The entire estimate

Note —Contn Sheet

Serial No

had to be recast by the Chief Engineer The estimate now prepared by him is for Rs 2,35,400/- but he has left it to Government for orders on one or two points They are (1) It would be necessary to verify that the G I pipes are supplied at controlled rates If not, a rate of Rs 2/4/- has to be paid The rate of Rs 2/4/- a foot of ½" G I pipe is too much Though pipes could have been sold only at controlled rates, there is no need to pass it at any rate higher than the controlled rate (2) None of the windows in the first floor have been provided with iron bars as gathered from the Municipal Engineer, Davangere (vide para 33 a to c) A reduction of annas nine may be made (3) A sum of Rs 2,000/- has been provided for supervision charges This will naturally have to be debited only to the extent the actual staff employed for the purpose, and is not a sum payable to the contractor (4) This relates to the proposed payment of Rs 8024/- to the Contractor as resolved by the Council It is stated in the resolution (flag N) that the contractor took pains in importing masons and labour from outside the State at heavy cost to complete the construction of the office very quickly It is difficult to see how this figure was arrived at In my opinion, this is an extremely unusual proposal When a contractor agrees to do the work, he does so at the rates tendered by him It is his duty to get labour wherever it is available It is common knowledge that most of the masons who work in Mysore State today come from outside I do not think there are any precedents for a similar claim On a perusal of the rates itself, it is felt they err on the liberal side It is felt that the contractor will have made substantial profit even with the existing rates, and there appears to be absolutely no need to pay a lump sum amount

SIR,

SUBJECT Revised Estimate for Rs 2,50,000/- Regarding the construction of the New Municipal Office Building in Davangere City--According Administrative Sanction of Government therefor***etc ,

---

In forwarding herewith in original, the file of correspondence received ffom the Municipal Engineer, Davangere City Municipality on the subject noted ahove, I write to state that in the first instance an estimate for Rs 59,000/- for the construction of a separate building for the Municipal Office at the place had been sanctioned fm by Government in their order No L 945-8/M1 172-43-6 dated 29th July 1944 The type design of the building proposed to be adopted in enclosed for favour of reference

After the Estimate for Rs 59,000/- had been sanctioned the work upto the basement stage was got completed in the year 1947 at a total cost of Rs 31,855/-

While the work of this building was at the basement stage, the then Government Architect who visited this place inspected the spot of the building and suggested certain modifications in the design of the building The Municipal Council having agreed to adopt the revised type design of having " L " shaped block facing north and Western directions with increase in accomodation in the Western Wing,

he revised estimate for Rs 1,36,500/- to take up this ork pertaining to the Ground Floor with a room in the irst floor was sanctioned by Government in their order o L 2710-3/C M 13-49-2 dated 8th September 1949 The evised Type Design of the building to have " L " shaped lock for the ground floor on north and Western directions s approved by the then Government Architect is herewith orwarded for favour of reference

After receipt of orders of Government, sanctioning he revised Estimate for Rs 1,36,500/-, tenders were called or and the tender of Sri B N Balakrishna Mudaliar to work ut at estimated rates was accepted by Government as communicated in your letter No L 1031/C N 13-49-10 dated 26th pril 1950

Accordingly, the execution of the building work of the round floor as per the revised type design was entrusted o Sri B N Balakrishna Mudaliar While the work was under rogress, the Municipal council desired to provide the Ist loor to the entire building also Accordingly, a revised ype design was obtained from the Government Architect (Sri B R Manickam)

The Municipal Council considered the aspect of providing he Ist floor of the building also at its meeting held on ~~18/24~~ 18/24th April 1951 and resolved that the Revised Estimate may be sanctioned for Rs 2,00,000/- and that the execution of the work be continued by the Contractor (Sri B N Balakrishna Mudaliar) and got completed, pending sanction of the revised estimate by Government, in view of the act that the building was under progress and had to be got ompleted before the commencement of the Rainy Season

A copy of the resolution of the Municipal Council is enclosed for favour of reference

Contd

In pursuance of this resolution, the Contractor Sri B N Balakrishna Mudaliar was allowed to carry on further work connected with the ground floor as well as the Ist floor of the building

While the building work was under progress, intimation regarding the Tour of His Highness the Rajapramukh of Mysore to Davangere City on 7th August 1951 was received and the Municipal Council decided to have the opening ceremony of this New Building being kindly got performed by His Highness-vide Municipal Council Resolution No 1 dated 11th June 1951--copy enclosed for reference

Accordingly, this event was included as one of the items in the Tour Programme of His Highness to Davangere City

In the revised estimate sanctioned for Rs 1,36,500/-, provision to provide electric and sanitary fittings to the building having not been made, it was deemed necessary and essential to provide these additional items, before the building could be put into service and also before the opening Ceremony of this building being kindly got performed by His Highness the Rajapramukh of Mysore on 7th August 1951

The two amenities were provided to the building and lumpsum provisions have been made for these two additional items costing Rs.12,500/- for Sanitary fittings and Rs 18,000/- for Electrical fittings respectively, in the present revised estimate for - Rs 2,10,000/- prepared and furnished by the Municipal Engineer for superstructure only This revised estimated cost is exclusive of the sum of Rs 31,855/- spent for foundation and basement stages

The necessity that lead to the further revision of the Ist revised estimate is explained in detail in the report accompanying the present revised estimate and the comparative statement furnished by the Municipal Engineer

The revised estimate for Rs 2,10,000/- having been placed before the Municipal Council for sanction at its meeting held on 28th June 1952, the Municipal Council considered the revised estimate fully in all its aspects and resolved unanimously that Government be requested to accord their Administrative sanction to the revised estimate, in view of the fact that the work was got executed, completed, and the building was occupied in view of the urgency connect with the opening ceremony of this Building by His Highness th Rajapramukh of Mysore on 7th August 1951-vide resolution copy enclosed for favour of reference It is in pursuance of this resolution the further work had to be taken up and executed expeditiously

On a request made by the Contractor Sri B N Balakrishna-Mudaliar for allowing him special rates in respect of certain items claimed by him as per details noted in his representation and the fact that he had to import masons, carpenters and skill labourers from outside the Mysore State i e from "Devakote" for completing the construction urgently and that he might be sanctioned an extra lumpsum amount of Rs 8,024/- as worked out in his representation enclosed to this letter, the same was considered in all its aspects by the Municipal Council at its meeting held on 28th June 1952 and it was unanimously resolved that the contractor Sri B N Balakrishna Mudaliar be allowed in the light of the special circumstances fully detailed in the body of the resolution, the enhanced rates in respect of the several items viz--for brick works, plastering, flooring, R C C Roofing, doors and windows amounting to Rs 8,024/- as per calculation sheet furnished by the Municipal Engineer As no provision has been made for this extra item in the revised Estimate under reference, it has to be sanctioned as an item of special nature

The total cost of the building would therefore work up

to

to Rs 2,50,000/- (in round figures) as detailed hereunder -

1	Foundation and Basement Stages already incurred	Rs 31,855
2	For superstructure Stages- of the building including both the ground floor and Ist floor of the entire building	Rs 2,10,000 /-
3	Special items to be allowed as per representation of the Contractor	Rs 8,024 /-
		Rs 2,49,879 /-
	for Rounding	121 /-
	T o t a l	Rs 2,50,000 /-

With regard to the execution of the work by Sri B N Balakrishna Mudaliar, the Contractor--in respect of both the ground floor and the First floor, it may be stated here that tender of Sri B N Balakrishna Mudaliar at estimated rates--in respect of the revised estimate for Rs 1,36,500/- for ground floor portion had been accepted by Government vide letter No L 1031/C M 13-49-10 dated 26th April 1950 As regards the execution of the work connected with the Ist floor also, the rates already accepted by Government for the ground floor--in respect of items embodied in the Revised Estimate for Rs 1,26,500/- will have to be paid for the Ist floor also and that as regards - additional items (not found in the revised estimate for Rs 1,26,500/-) and since provided in the present revised estimate for Rs 2,50,000/- the data sheet furnished by the Municipal Engineer which is forwarded herewith will have to be adopted

I am to state in this connection that the construction

towards North and Western directions with ground and Ist floors is completed and the two wings are put into service The entire Western wing portion of the building with ground and Ist floor has been given for locating the Ist and II year classes of the Brahmappa Devendrappa Tavanappanavar COLLEGE OF ENGINEERING The Northern portion of the wing is used for the City Municipal Offices

Further, I wish to state that one of the important conditions for granting the Engineering College for this place was the providing of accomodation by this City Municipal Council for the location of the Engineering College This was one of the reasons which compelled the Municipality to get through the work expeditiously as the First Year - Class of the Engineering College had to be opened early vide Government Order No E 4482-5/UNI 43-51-2 dated, Bangalore, 23rd August 1951 (xide copy herein enclosed) If this was not done, there was every ~~xx~~ probability of losing the Engineering College to this place

I request you, therefore, to kindly obtain Administrative Sanction of Government to the present revised estimate for Rs 2,50,000/- and to kindly sanction the payment of the special and extra charges amounting to Rs 8,024/- to the Contractor--Sri B N Balakrishna Mudaliar as recommended by the Municipal Council This extra - charge is of a special nature now included in the present revised estimate of Rs 2,50,000/-

I request the favour of early orders of Government in this behalf

Contd

The revised estimate with its other enclosures as detailed in the Table of Contents furnished to the records accompany for favour of kind reference

Forwarded

(I Doddaveerappa)
President,

G O.No E 6020-2/Uni.64-48-4, dated 14-12-1948 accepting the donation of Rs. One and a half lakh from Sri Chandranna on behalf of Messrs Brahmappa Thavanappanavar of Davangere and approving the Establishment of an Engineering College at Davangere which is to be called as the Brahmappa Devendrappa Thavanappanavar College of Engineering

2. Letters No G O 167/51-52 dated 9-6-51 and G O 178/51-52 dated 14-6-51 and 20-6-1951 from the President, City Municipal Council, Davangere, requesting in the circumstances sanction to the starting of the 1st year B E Class of the Engineering College at Davangere from the present academic year

3. Correspondence ending with letter dated 13th July, 1951 from the Vice-Chancellor in the matter,

ORDER No E 4482-5/UNI 43-51-2, dated Bangalore, 23-8-1951

Although the donation of Rupees one and a half lakhs for the purpose of starting a College of Engineering at Davangere was accepted over 2 years ago, the College was not started till now for want of suitable building, equipment, etc , The City Municipality, Davangere, has given 20 acres of land for constructing the Building of this College and the question of the construction is under examination separately In the meanwhile, the President, City Municipal Council, Davangere, suggests that a portion of the accommodation and the Equipment of the Occupational Institute at Davangere along with the additional equipment to be made available during this year may be utilised for starting the First Year B E Class (concerne to all the branches of Engineering) this year In this connection the President has started that the Municipal Council a prepared to give a portion of the Municipal Office Building for the immediate use of the Engineering College

The Vice-Chancellor, was consulted in the matter and the approximate cost for starting 1st year B E , Class was called for from him

In view of the immediate need for an Engineering College at Davangere sanction is accorded to the starting of the 1st year B E , Class of the Engineering College at Davangere at an estimated cost of Rs 50,000/- as detailed in the margin for the term commencing from October, 1951 to the end of March 1952 under th following conditio

1. Recurring cost on staff	Rs 12,000
2. Laboratory working charges	Rs. 1,000
3. Physical Culture	Rs 1,000
4. Contingencies	Rs 500
5. Furniture	Rs 10,000
6 Library	Rs 6,000
7 Survey and Drawing Equipment	Rs 10,000
8. Alteration etc , to buildings and equipments for Science Laboratory	Rs 9,500
Total	Rs 50,000

1. The class will consist a total number of eighty students

2 The College wi be started in the month of October,

3 The College will be located in the Municipal Office building utilising a portion of the building of the Occupational Institut also, if necessary

The expenditure of Rs 50,000/- on this account during the current year will be met out of the provision of Rupees one lakh made in the Budget of the University for starting an Engineering College at Davangere and for up-grading the Medical School at Bangalore

The Vice-Chancellor is requested to take immediate action in the matter by posting the necessary staff etc , He is also requested to send up detailed proposals for - starting the second and subsequent year classes from the next year onwards and to make necessary provision for this purpose in the University Budget of the next and subsequent years

No 555
To

Office of the Executive Engineer,
Davanagere Division,
Chitaldrug, dated 19 February 1953

RB 2447
25 2-53

The Chief Engineer,
of Mysore, Bangalore.

Sir,

Subject - Municipal Works, Davanagere.

With reference to your No 1225-26/RB/52-53 dated 16-1-53, I write to report as follows.-

The following works have been checked by me -

1) The Municipal Office building
2) Portico for the same.
3) The open stalls at Davanagere.
4) Drainage works.

I The Contractor Sri. Balakrishna Modaliar had done ... of item 1,2 and 3, except for the sanitary fittings to the Municipal buildings.

It is seen that an advance of Rs 82,000 is outstanding against the contractor.

The contractor has done work to the extent of Rs.1.60 lakhs in all these works The full advances outstanding against this contractor can be recovered from his bills to be paid In addition he is doing the work of shop building near Durga Hotel, compound wall to the Municipal Offices etc.

II The dues from Sri Ebrahim Rahimuthulla.

1) This contractor is entrusted with the Sanitary fittings to the Municipal offices, and underground drainage works of Davanagere in several places.

Under ground drainage works.
The old works and also the fresh works done by this contractor have been checked, and the amount of bill on this work will come to Rs 17,708/- Against this work the adavnce outstanding is Rs.28134/- and hence there will be a heavy advance of Rs.10,426/- outstanding against this contractor The contractor says that some bills pending previously passed to the extent of Rs.34000 has been adjusted towards advances This requires verification by the Municipal Commissioner.

2) Sanitary fittings to Municipal Offices

The work has been completed and the contractor has submitted his bill for this work There is no sanctioned estimate for this nor any agreed rate for the work.

An advance of Rs 11,000 has been given on this work, and the work done will come to this amount, and may be recovered in full after settling his claims. The Municipal Engineer has been requested to prepare the bill of this contractor on this work after obtaining the sanction for the detailed estimate prepared by him

Under these circumstances, I write to state that the advances outstanding against Sri Balakrishna Modaliar may be recovered in full in the bills pending payment, and further bills on works in progress may be paid to him.

Regarding the advances outstanding against Embrahim Rahimuthula, action has to be taken by the Municipality to recover the advances by entrusting further works or by some other means. The unofficia

23 9 53

1. The construction of a new Municipal Office building at Davangere at a cost of Rs 59,000/- was sanctioned in G.O. D 29 7 44 dated above. The work upto basement level was completed in the year 1944 at a cost of Rs

WD 01417—GPB—25 000—3 11 52

of 31,855/= At this stage, the Chief Architect suggested some modifications in the design of the building Accordingly, a revised estimate for Rs 1,36,500/= was got up and sanctioned in G.O. Ms. No. 949 dated 9-6-50 read above on the proposal of the Municipal Council to entrust this work to Sri Balakrishna of Mylapore at the tendered rate of 1,02,689/= was approved in letter dated 26-6-50 read above while the work was under progress, the Municipal Council decided to have a first floor for the building and approved on 24/4/51 the revised estimate for Rs. 2,10,000/= Sri Balakrishna Mudaliar was allowed to continue the work

2 Provision was thereafter made for Sanitary and Electrical fittings, which had been omitted in the Previous estimates, at a cost of Rs 30,500/=

The total estimate hand worked out to Rs. 2,41,855/= ~~[illegible]~~.

~~[illegible]~~ made up of (1) Rs. 31,855 for foundation and basement, (2) Rs 2,10,000/= for Superstructure. As the work had to be done on a rush basis requiring outside labour for H.H. to open the building in time, the Municipal Council approved of making an extra lumpsum payment of Rs 8,024/= to the Contractor the Commissioner recommended sanction to the expenditure of Rs 2,49,879/= or Rs 2,50,000/= in round figures incurred on the building as above.

3 The Chief Engineer to whom the file was referred unofficially passed the above estimate for Rs 2,35,600/=

WD 01417—GPB—25 000—3 11 52

to like the following observations

(1) In case item rates are not provided for as ascertained from the Municipal Engineer, a reduction of annas 9/= in the land rate of Rs 12/= per sq foot of window area is to be made

(2) The rate in respect of ½" G S pipes is high this rate is to be allowed if pipes were not made available at controlled rates of Rs 2-4-0

(3) The lumpsum payment of allowing of the Rs 8,024/= recommended by the Municipal Council is discretionary with the Govt

4 It will be seen from the above that an estimate of Rs 59,000/= has ended up in an estimate of Rs 2,50,000/=. There has been a number of additions, variations and modifications without Competent authority or sanction the entire estimate had to be recast finding by the Chief Engineer for Rs 2,35,400/=,

Subject to certain observations

5) After a careful ~~examination~~ examination

Govt order ~~consider~~ that -

(1) there is no need to allow any higher rate for ½" G.I Pipes than the Controlled rate. to

(2) A fixed reduction of annas 9/= per sqr ft of window area be made for non-provision of bars to the windows in the first floor

(3) against a provision of Rs 2000/= for Supervision charges, only amount to the extent spent or staff actually employed for the purpose be allowed, and the amount is ~~will however be~~ not payable to the Contractor as it is only a provision that has to be shown in the estimate towards expenditure incurred for staff

(4) the lumpsum payment of Rs 8,024/= to the Contractor as recommended by the Council need not-

WD 01417—GPB—25 000—3 11 52

se paid, as it is neither a legitimate nor a reasonable claim
& the estimate is accordingly
Sanctioned for Rs 2,27,380 (in words)
deducting provision made for
lumpsum payment. Deductions
may also be made for ½" G.I
Pipes, for windows in the first floor,
and towards Supervision Charges as ~~mentioned~~ entered
in Para 5 above
the estimate as recast
by the Chief Engineer is enclosed

e a d .-

Government Order No.L.945-8/Ml.172-43-6 dated the 29th July 19 accordi.. sanction to an estimate for Rs.59,000/- for the constructio of a separate building for the Municipal Office in Davangere City according to the plan furnished by the Government Architect.

2. Government Order No.L.2710-3/C1.13-49-2 dated 8th Septr.1949 sanctioning a modified estimate for Rs.1,36,500/- for the constructio of the Municipal Office Building at Davangere, the entire cost of th work being met out of Municipal funds.

3. Letter No.L.1031/C1.13-49-10 dated 26th April 1950 approvir the resolutions of the Municipal Council, Davangere, accepting the tenders of Sri B.N.Palakrishna Mudaliar for the marginally noted works.

1. Construction of the Vegetable Market at the tendered rate of Rs.870-8-5 for each stall for the construction of 58 stalls. 2. Construction of the Municipal Office Building tender rate Rs.1,02,689/-	4. Letter No. H.C.54/52-53 dat the 9/10th Oct.1

from the Municipal Commissioner, Davangere, forwarding for sanction a modified estimate for Rs.2,10,000/- exclusive of foundation and bas ment stages already incurred, as approved by the Municipal Council at its meeting held on 18th April 1951 and 20th April 1951 and for the payn nt of a lumpsum amount of Rs.8,024/- towards special items as per represen- tation of the contractor, as approved by the Municipal Council in its resolution dated 28th June 1952, the entire cost thus aggregating Rs.2,50,000/- approximately.

5. Unofficial Note No.2848/RB.53-54 dated 9/11th July 1953 and No.3926/RB.53-54 dated 12th August 1953 from the Chief Engineer of Mysore on the subject.

ORDER No.L. 78/13-15/Cn II 52-29

DATED, BANGALORE, THE 23 SEPTEMBER 1953.

The construction of a new Municipal Office Building at Davangere at a cost of Rs.59,000/- was sanctioned in Govern ent Order dated the 29th July 1944 read above. The work upto basement level was completed in the year 1947 at a cost of Rs.31,855/- At this stage, the Governm Architect suggested some modifications in the design of the buildin

then the controlled rate,

Accordingly a revised estimate for Rs.1,36,500/- was got up and sanctioned in Government Order dated the 6th September 1949. read above. The proposal of the Municipal Council to entrust this work to Sri Balakrishna Mudaliar at the tendered rate of Rs.1,02,659/- was approved in letter dated the 26th April 1950 read above. While the work was under progress, the Municipal Council decided to have a First Floor for the building and approved on 24th April 1951 the revised estimate for Rs.2,10,000/-. Sri Balakrishna Mudaliar was allowed to continue the work.

2 Provision was thereafter made for sanitary and electrical fittings, which had been omitted in the previous estimate, at a cost of Rs.30,500/-. The total estimate thus worked out to Rs.2,41,855/- made up of (1) Rs.31,855/- for foundation and basement, (2) Rs.2,10,000/- for super-structure. As the work had to be done on a rush basis importing outside labour for his Highness the Rajpramukh of Mysore to open the building in time, the Municipal Council approved of making an extra lumpsum payment of Rs.8,024/- to the contractor. The Commissioner recommended sanction to the expenditure of Rs.2,49,879/- or Rs.2,50,000/- in round figures incurred on the building as above.

3. The Chief Engineer to whom the file was referred unofficially recast the entire estimate for Rs.2,35,400/- with the following observations.-

(1) In case iron bars are not provided for as ascertained from the Municipal Engineer, a reduction of annas 9/- in the tendered rate of Rs.12/- per sq.foot of window area is to be made.

(2) The rate of Rs.2-4-0 in respect of ½" G.I.pipes is high. This rate is to be allowed if pipes were not made available at controlled rates.

(3) The allowing of the lumpsum payment of R.8,024/- recommended by the Municipal Council is discretionery with the Govern

4. It will be seen from the above that an estimate of Rs.59,000/- has ended up in an estimate of Rs.2,50,000/- There has been a number of additions, revisions and modifications without competent authority or sanction. The entire estimate had to be recast finally by the Chief Engineer for Rs.2,35,400/- subject to certain observations.

5. After a careful examination, Government order that:-

(1) there is no need to allow any higher rate for ½" G.I pipes than the controlled rate,

(2) a reduction of annas 9/- per sq.foot of window area be made for non-provision of bars to the windows in the first floor,

(3) against a provision of Rs 2,000/- for supervision charges, only amount to the extent spent on staff actually employed for the purpose be allowed, and this amount is not payable to the contractor as it is only a provision that has to be shown in the estimate towards expenditure incurred for staff,

(4) the lumpsum payment of Rs.8,024/- to the contractor as recommended by the Council need not be paid, as it is neither a legitimate nor a reasonable claim.

6. The estimate is accordingly sanctioned for Rs.2,27,380/- (Rupees Two Lakhs twentyseven thousand and three hundred and eighty only) deducting provision made for lumpsum payment. Deductions may also be made for ¾" G.I pipes, for windows in the first floor and towards supervision charges, as ordered in para 5 above.

7. The estimate as recast by the Chief Engineer is enclosed.

B.N.Balakrishna Mudaliar
Contractor.

Davanagere,
Chitaldrug District,
27th August 1953.

TO

THE SECRETARY TO GOVERNMENT,

LOCAL SELF-GOVERNMENT DEPARTMENT,

PUBLIC OFFICES, B A N G A L O R E

Respected Sir,

I beg to submit that I was entrusted with the construction (two years' work) of a building for the use of the Municipal Office at Davanagere City in 1950

Subsequently the Municipal Council passed a resolution and directed me to finish the building within 6 months as they wanted the building to be opened by His Highness the Maharaja of Mysore. For this early construction of the building, I had to incur an additional expenditure of - Rs. 8,000/- and odd and had to bring labour like, masons, carpenters etc., from Devakote. I have devoted all my time for this construction by two shifts and finished the construction of the building within the stipulated time.

as may be placed on the main file

27/8/53

28/8

Sastry

The Municipal Council has unanimously passed a resolution sanctioning the extra amount of Rs.8,000/- incurred by me and the Chief Engineer also has recommended for the payment of the extra amount.

In this connection I beg to state that I have not asked for a lumsum grant of Rs.8,000/- and the amount has been spread over for different items of work as detailed below: The Municipal Engineer has already given details for the enhanced rate and the details along with the revised estimate are in the concerned file

(1) Brick construction.

(2) R.C.C. roofing.

(3) Lime plastering.

(4) Doors, windows and ventilators.

(5) flooring.

As my bills are pending payment for a long time, I appeal to your kindness that early orders may kindly be passed for the payment of the extra amount of Rs.8,000/- incurred by me.

Yours faithfully,

B N Balakrishna Mudaliar

(B.N.Balakrishna Mudaliar)

No. L 8694 /53-5th

21-10-53 D

To

The Municipal Commissioner,
Davanagere (Chitradurga Dist)

Sir,

Sanction of detailed estimates for Sanitary fittings and ~~Electrification~~ Electrification to New Municipal Office building

With reference to your letter No. M. PR 23 /53 5th D 3 9 53 on the subject mentioned above, I am directed to invite attention to the G O No L 7613-15/C M 11-53, D 23 9 53 finally sanctioning the estimate for the construction of the Municipal Office building in question and to state that detailed estimates in respect of the items mentioned

WD 01417—GPB—25 000—3 11 52

in your letter under Reference have been already obtained by the C E from your Municipal Engineer and considered in Preparing the Precast estimate. The detailed estimates obtained by the C E are also returned to you with the G.O D 23 9 53

I am therefore to State that no Separate Sanction seems to be necessary in respect of the estimates in question ~~If you find that~~

Yours Faithfully,

for L S G Secy
